Subject: Add registration of summer 2017

Dear sir

My name is Enamul Haque and I am a student of Bangladesh University in 46 batch department of cse. I have admitted here in fall 2016. I have paid the summer 2017 semester mid term and final tuition fees with registration fees. But the registration fees didn't pay separately that's why the registration didn't add in the portal. I have given the summer 2017 retake exam but then I knew that the registration is missing in the portal. I have to pay the registration and tuition fees again and should give the exam again. My financial state is not so good. And this is my last semester of my university duration. After that any of my records or registration won't be allow due to student period for 6 year.

May I therefore pray and hope that you would be kind and solve my problem by adding my registration in the portal and give my exam result marks.

Your sincere

Enamul Haque
